

Logitech® B525 HD Webcam

Logitech® B525 HD Webcam, a swivel plus fold-and-go design makes it easy to position the HD video call at any angle — including moving away from you for privacy — and also take the camera with you.

Key Selling Points

- Video calls look and sound true to life with HD 720p video calling at up to 30 fps, autofocus and built-in stereo mic
- The 360-degree swivel design is perfect for the professional wanting to take control of the video call angle – and also allows the user to move the camera away for privacy
- Even if video calls are made in dim or poorly backlit settings, the webcam will intelligently—and seamlessly—adjust to produce the best possible image
- Your team can feel confident that this webcam will work with virtually any business video-calling client—and its optimized for Microsoft Lync™ and certified for Skype®

Other Features

- Built-in mics with stereo audio ensures the sound quality is clear during professional conferencing
- Fits your LCD monitor or laptop wherever you work
- Just plug in the Logitech B525 HD Webcam and start up your application to begin video calling

\$59.99 | 3-Year Warranty
